

December 2009

WE START OUR OWN PRODUCTION!

A *new Epoch* begins at

FOREVER® 
DIGITAL TRANSFER APPLICATIONS TECHNOLOGY

On a 3,500 sqm property, 10 km away from Mannheim, our newly built headquarters is now located in Heddeshheim.

The **260 cm broad coating-unit** and the converter are installed and the production has started successfully in our own facility. With this, a new epoch has begun at FOREVER GmbH.

FOREVER GmbH is worldwide the first supplier of digitally printable transfer papers, who develops, produces, converts and supplies from his own facility.

This means for our customers shorter development periods, higher available stock and especially an optimized quality control starting from the master-role to the smallest format.

FOREVER® 
INNOVATIVE COATING SOLUTIONS

If you are looking for a solution for digitally printable media, we are ready to support you with our special know-how. We offer you **not only** solutions for waterbased sublimation or solvent inks, but also for laser printer/color copiers and for HP Indigo machines, which you can apply on your printable media.

If you are conducting your own research or would like to put your own ideas into practice, we proudly offer you our 260 cm broad coating and packing unit for the realization of your own ideas.

**NEW****SUBLI-DARK COLOR PROFILES****FOREVER Subli-Dark 201 & FOREVER Subli-Dark 301
FOREVER Subli-Dark Soft 501**

✓ Unique technology of mirror image printing on dark textiles

✓ Extreme vibrant colors

✓ Very high wash fastness

? Color reproduction on textiles

? The mirror imaged print on dark textiles, the very high wash fastness and the vibrant colors have always satisfied so far. Merely the color reproduction on textiles was falsified, respectively difficult to control. Since this September, we offer you 36 different color profiles for free download on our homepage.

Just choose on the homepage (www.forever-ots.com) the desired FOREVER transfer paper, the printer and the manufacturer of the ink and then download the 2 respective profiles for graphics and for photos separately.
