\* More sizes available on request.

# BECAUSE ORDINARY JUST ISN'T ENOUGH

---

**FOREVER DTF Glitter** adds shimmer, style and extra value to your prints. This transfer film is not just another product. It is a great way to make your work stand out from others.

The glitter is built into the film, so the glitter effect only appears where you print. You do not need extra vinyl, you do not need to layer and you do not need extra steps.

**FOREVER DTF Glitter** is perfect for fashion clothing, kids' clothes, eye-catching designs and special collections. Customers will see and feel the difference.

You can add it to your product list, offer it as a special upgrade or use it to create something new and unique.

# ► FULL COLOR DESIGNS WITH A SHINY LOOK

## DTF GLITTER

Bring your prints to life with built-in shine - no added steps and just stunning results. Vibrant colors shimmer with every move, turning everyday designs into eye-catching statements. Perfect for standout logos, bold graphics and special apparel that demands attention.

# WHY FOREVER DTF?

---

Your prints are only as good as the film behind them. That's why professionals choose FOREVER DTF Transfer Films - for results that don't just meet expectations, but exceed them.

From the first press to the final product, you will see the difference: vibrant color, crisp detail, and long-lasting durability. Our films are precision-coated for consistent results, making every job smoother and every finish flawless.

Say goodbye to wasted prints, unreliable adhesion and second-guessing your materials. With FOREVER DTF Films, you get trustworthy quality through Germany Technology, whether you are printing one shirt or a thousand.

If you care about color, consistency and confidence, choose DTF Film that is designed to perform - choose FOREVER.

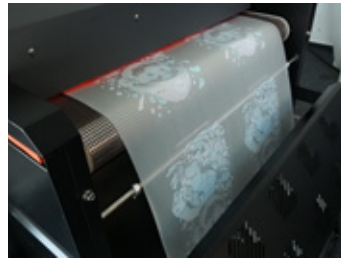

# HOW DOES DTF WORK?

**1** Print your design onto the DTF Film.

**2** Apply the DTF Glue powder to the wet ink.

**3** Cure the DTF Glue powder in the oven.

**4** Transfer to the garment.

**5** Easy Peel (instant, hot, warm or cold).  
+ Re-Press for higher washability.

## LARGE DTF SETUP

The DTF large format printing system produces hundreds of graphics or designs onto large rolls of film. It requires the use of specialist equipment, and much larger printers than the standard DTF printing system.

### ADVANTAGES

- Reliability & high production
- Low-cost production
- Large production volumes
- Less servicing
- Less film waste
- All-in-one system
- Inline printing, powdering & drying

### SETUP

FOREVER DTF  
Transfer Film (Rolls)

DTF Shaker, Dryer & Roller  
(Medium/Large Format)

DTF Printer  
(Medium/Large Format)

INSTA 256 FOREVER Edition  
Professional Heat Press

## SMALL DTF SETUP

The smaller DTF printing system is perfect for start-ups or even for companies wanted to make a smaller investment in the DTF system. The production volumes are lower than the large format printing system. This system is suited for Print-on-Demand.

### ADVANTAGES

- Affordable
- Compact Design
- Minimum space requirement

### SETUP

FOREVER DTF  
Transfer Film (Sheets)

DTF Powder Tray  
& Drying Oven

DTF/DTF Modified Printer  
(Small Format)

INSTA 256 FOREVER Edition  
Professional Heat Press
