FOREVER®
DIGITAL TRANSFER APPLICATIONS TECHNOLOGY

FOREVER has been developing transfer paper for color copiers and laser printers since 1989. We are one of the few real manufacturers in this industry and we offer ideal solutions for printing on all kinds of different materials. As one of the first producers, we also provide transfer paper for the white toner printers.
Our broad product range covers our customers' needs on transfer paper for light and dark colored textiles as well as for hard surfaces.
Our strength is research and development. We observe the market trends and develop the right products at the right time. One of the main reasons for our international success is „Product Consistency". With high-quality products we were able to win customers in more than 100 countries all over the world.

The name FOREVER has been chosen on purpose, reflecting the expectations we have on ourselves to develop superior quality products with permanent stability for the digital transfer printing industry.
Solvent transfer papers from FOREVER allow you to print and cut with your plotter and transfer the result onto your textiles very easily. Dark, light, subli block, solvent-printable flock and many other solutions are available in our portfolio. If you choose FOREVER, you will enjoy not only the excellent quality of our High Quality Products but also invest in the protection of our environment. We care about our environment concerns and guarantee to use only 100% water-based formulations for our coatings. The raw materials used are ecologically harmless and free of PVCs, softeners and heavy metals.

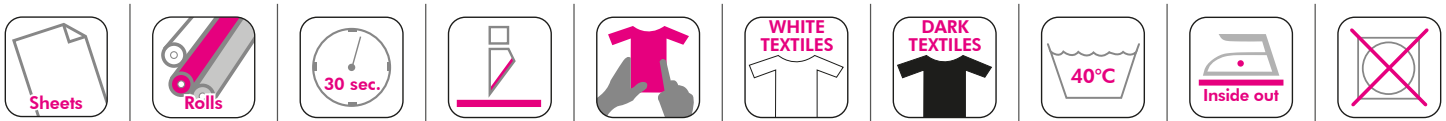

OUR STRENGTHS

- Worlds Leading Transfer Media Manufacturer
- Innovative Products with Unique Selling
- Wide Product Range
- High-Quality Products
- Customer Training
- Technical Support
- Short Delivery Time

FOREVER **SOLVENT-TRANSPARENT 151**

DESCRIPTION
Hot peel transfer foil for white textiles made out of 100 % cotton or mixed fabrics. Perfect for photographic applications.

PRINTABLE MATERIALS
100 % light colored cotton, mixed fabrics

SIZES
Rolls:
- 63 cm x 25 m (24.8 in. x 82 ft)
- 127 cm x 25 m (50 in. x 82 ft)

CHARACTERISTICS
- For photos and full colored images! (cuttable with a pair of scissors)
- Extremely elastic material
- Wash fastness and color brilliance for professional expectations

PRINTING & CUTTING
A plotter is not required. The design can be cut out with a pair of scissors. An application tape is not needed either.

Rolls

15 sec.

FOREVER GOES GREEN

OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100
I3.0.26275 HOHENSTEIN HTTI

Tested for harmful substances.
www.oeko-tex.com/standard100

Before introduction of the OEKO-TEX® Standard 100 there was neither a reliable product label for the assessment of the human ecological quality of textiles for consumers nor a uniform safety standard for manufacturers in the textile and clothing industry allowing practical assessment of potential harmful substances in textile products

WHAT IS OEKO-TEX®?
The OEKO-TEX® Standard 100 was introduced at the beginning of the 1990s in response to the demand of the general public for textiles which are harmless to health. „Poison in textiles" and other negative headlines were widespread at this time and indiscriminately branded all chemicals used in textile manufacturing as negative and dangerous to health.
The demands we make of modern textile products cannot be realised without the use of specific chemical substances, however. Modern colours, easy care properties, long useful life and many other functional properties of textiles are required today and can be indispensable for certain applications (e.g. for workwear).

QUALITY & RESPONSIBILITY
If you decide to go for FOREVER, you do not only enjoy the excellency of our high-quality products - but also the technical support of a companys' know-how in form of consulting and training services for you and your employees. Highly qualified employees in our german headquarters assure and provide the constant and high quality of all our products. We continuously invest in research and development - and thus also directly invest in the protection of our ecological environment. Keeping our environment in mind, we guarantee the use of 100% water-based formulations for our coatings.
Since October 2013, all FOREVER laser transfer papers are officially awarded with the Oeko-Tex Standard 100 (Class 1).
Definition of Class 1:
Products for babys & toddlers (up to 36 months). You can use FOREVER media for baby or children's products without any hesitation.
